

An **EVOLUTION** in the Permian Basin

2 states

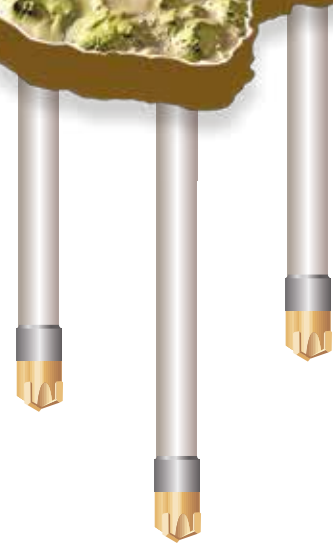

63 counties

75,000 square miles

1.5 Mbbbls crude/day

±15% U.S. daily production

370+
Evolution®
horizontal
wells drilled
since 2010

One customer
cut **14 days**
drilling time and saved
\$450,000
in fluid costs compared
to OBM offsets

The Spraberry Challenge

- Find a low-density alternative to OBM
- Lubricity equal to or better than OBM
- Reuse of fluids, solids control capabilities

The Solution

Evolution® Fresh Water System

- Low-density fresh water base
- Solids control performance monitored 24/7
- EvoLube® for maximum lubricity
